Near Vodnjan, we are selling a large estate with a stone house. The house has a ground floor and an upper floor, all made of stone (Istrian house) and is in need of complete renovation.

Electricity is available at the house. Water is sourced from a well. The house is part of a row with another stone house.

There is a large plot of land in front and behind the house. From the upper floor, there is a sea view!

This is an excellent investment opportunity as it is also possible to purchase an old stone house of approximately 60 m², plus a registered ruin of about 70 m² next to it, as well as an additional plot of approximately 40,000 m² - all for the price of €465,000.

Great potential!
